# A Message from the General Manager

1

by Scott Larson

Don't look now, but it's that time of year again. You're discovering the wonders of layered clothing, half-heartedly trying to convince yourself that earth has *not* been knocked out of orbit and is *not* doomed to become a wandering, aimless ice planet, and you've got that nameless craving for a really good telethon. How many of us aren't sharing these feelings right now? We, the staff members of WRUW, are proud to present to you, the listeners, our fifth Annual Telethon. For the week of February 16th through the 22nd, WRUW, the college radio station of Case Western Reserve University, will be asking its listeners to call up and pledge affordable sums of money toward maintaining and improving the quality of the station.

Listener contributions have grown in the last five years to make a huge impact on WRUW's funding, particularly in the areas of equipment purchases and the acquisition of records for our ever-expanding library. By calling up and making a contribution during a certain show, you can demonstrate your commitment to that type of music or programming. At the same time, your tax-deductable donation renders you

eligible to receive a special gift as a "thank you" from the station. Caller who pledge \$5 will receive a WRUW button and bumper sticker. Callers who pledge \$15 may choose an album from a broad spectrum of musical styles. Callers who pledge \$20 may obtain a WRUW T-shirt with the station's new logo design, and the list continues on and on. Listen during telethon week for more details about the premiums we'll be offering. Each pledge is important to us, because it's a way of measuring how much our listenership cares about and likes what we're doing.

For the upcoming year, WRUW will continue to purchase new pieces of equipment for our air studio; a compact disc player and various components of our new microwave transmitter link are among the things leading our 1986 shopping list. Our annual telethon is our primary fund-raising source; we have never believed in multiple fund-raising drives during the course of the year or similar tactics which might ultimately exasperate our audience. Instead, we choose to pause for this one brief week (out of 52), take the bright and shiny aluminum foil that protects us from the x-rays from Venus off our heads, and address your interest in helping us

maintain our level of quality. We thank you for your support and patience, and hope to keep you entertained in the coming year.

Last year's telethon was a highly successful affair and the proceeds from it enabled us to make a number of improvements at the station. Thanks largely to telethon funds, WRUW now broadcasts from a renovated and remodeled air studio. Over the last few years, telethon contributions have provided the station with several pieces of valuable (and much needed) equipment for our air and production studios, including turntables, tape decks, and microphones. These gradual improvements culminated in 1985 with the complete reconstruction of our broadcast studio, an achievement that would have been impossible without listener support. Your demonstration of appreciation has also provided our music director, Wade Tolleson, with the opportunity to purchase records to fill all sections of our library, including Cajun, blues, jazz, and various sub-categories of rock.

## Underground

Earlier this month, "Underground", a 75 minute video comedy about life at an underground radio station premiered on local cable stations. "Underground" was taped at our own studios, and it starred programmers Mike Arnovitz, Ched Stanisic, and former general manager Bob Harris. "Underground" features music by Cleveland artists Ernie Krivda, The Terrible Parade, First Light and Hotfoot Quartet. Additional original music for the video was written and performed by Ched Stanisic, Dr. Do & the Woptones, and Death on a Stick.

This episode chronicles the lives of three DJ's who live, breathe and eat radio...and the woman who changes their lives forever. It was directed by Jordan Davis and written and produced by Bob Harris. For more information about "Underground" contact Jordan Davis at (216) 397-0069.

## WHAT'S NEW AT 'RUW

by Chris Hagen

WRUW plans to purchase a Compact Disc player for its air studio. This acquisition will allow us to keep up with the latest technology and complement our extensive record library with CD recording.

Now that CD's are becoming the new audio standard, a surprising amount of alternative music is becoming available in the CD format. There are currently CD's of everything from Kitaro to Killing Joke. Brian Eno's latest album, *Thursday Afternoon*, is **only** available in the CD format. This is so that the 70-minute-long composition may be played without interruption. The Beggar's Banquet label has releases from Incantation, a Peruvian folk band on CD. Of course, CD's of classical music are very common since this type of music is the most demanding in terms of dynamics. Nevertheless, CD's of the Sex Pistols can also be found.

In addition to increasing the amount of music available to us, the CD player will also improve the quality of our air signal. Since WRUW does not heavily process its signal, much of the CD's dynamic range will be maintained.

As mentioned in the last issue of the WRUW program guide, WRUW will be installing a microwave transmitter link this summer. This system will save the station thousands of dollars in program transmission costs and will improve our signal dramatically while reducing "downtime".

Many of these improvements would not be possible without listener support during our annual telethon. This year's telethon will take place the week of February 17. We look forward to hearing from you.

# Kronos Hour

by Jordan Davis

America's foremost interpreters of contemporary string quartet music will be featured in a new, 13-week radio series *The Kronos Hour*, on Saturday nights at 10:00 p.m., beginning January 18, 1986.

At first glance, the Kronos Quartet appear too hip, too young to be classical musicians at the front of their field. They sport new wave haircuts, they have their own costume designer, they have a sense of humor. They have performed around the world to critical acclaim, and last year they reviewed thousands of scores from composers, both well-known and little-known, seeking the Kronos interpretation of their latest works. David Harrington, John Sherba, Hank Dutt and Joan Jeanrenaud, all thirtyish, are succeeding at both expanding the boundaries of, and bringing a more diverse listenership into the world of classical music. They endear themselves to rock fans by playing music

by Frank Zappa and Jimi Hendrix. They indulge jazz listeners with arrangements of Ellington and Monk. But their mainstay is contemporary classical music. Phillip Glass, Terry Riley, John Cage and Elliot Carter have all written music especially for the Kronos Quartet.

Now, in 13 refreshing and inspiring 1-hour installments, Clevelanders can experience the world of Kronos with *The Kronos Hour*. Over a year in the making, *The Kronos Hour* showcases 47 of the group's most popular numbers, as well as interviews with the members and conversations with the composers. Produced by Kronos, the program series was funded in part by National Public Radio's Satellite Program Development Fund and the Luke B. Hancock Foundation. The Kronos Quartet performed in Cleveland in October, 1985, as part of the Cleveland Museum of Art's AKI Festival of New Music. Kronos Quartet recordings are available on the Nonesuch, Gramavision, Landmark, CRI, Reference, and Sounds Wonderful labels.

# Minimum Tonic

## CRUISING THE BEAT

The recent group of young jazz musicians to emerge on the scene contains one definitive standout who deserves your attention. This is percussionist Marvin "Smitty" Smith, who displays amazing versatility, confidence, and maturity for someone only in his mid-20s.

Although, initially associated with straight ahead combo's, Smith has successfully played and recorded with a wide variety of music stylists ranging from Frank Wess to Hamiet Bluiett.

His only Cleveland appearance, to date, was in 1984 with the Dave Holland Quintet. In a show that was one of the musical highpoints of that year, Smith's performance stood out.

That particular club date ranks near the top in my archives of live performance highlights which includes Bobby Battle's Cleveland performance with Arthur Blythe in the early 80s, and Tony Williams with Wynton at the Front Row. In retrospect, Battle's performance included an astonishing assault on the drums which culminated in the illusion, for a brief moment, that his sheer force had reverberated the entire drum kit up off the ground (no easy trick). Williams, of

course, is a master percussionist whose innovative technique and flawless execution have made him a favorite with many jazz fans. Seeing him in a small concert setting is a true treat. His recent Blue Note release *Foreign Intrigue* is a welcome success.

Smith's performance produced the same high level of excitement and satisfaction. Although, not as heavy handed as Battle, Smith is capable of adapting to a wide range of situations. His presentation is well disciplined and intricate, while maintaining the spontaneity necessary for improvised music. The 1984 Holland Club date featured music from the first ECM quintet release, *Jumpin' In*, and possibly some selections from *Seeds of Time* which came out a good while later. Most of this music has substantial power behind it and requires much of the rhythm section. Smith more than met the challenge.

Although Smith has not released an LP to date as a leader, a fair amount of vinyl already exists which displays his talents. These include: Steve Coleman *Motherland Pulse* (JMT) with Lonnie Plaxico and Geri Allen; Dave Holland Quintet *Seeds of Time* (ECM) with Steve Coleman, Julian Reister, and Kenny Wheeler; Frank Foster/Frank Wess *Frankly Speaking* (Concord) with Kenny Barron and Rufus Reid; Hamiet Bluiett *EBU* (Soul Note) with John Hicks and Fred Hopkins; Branford

Marsalis *Scenes in the City* (Columbia) with Mulgrew Miller and Ron Carter; Horizon Quintet *Gumbo* (Amigo) with Bobby Watson, Curtis Lundy, Melton Mustafa, Miller, and Bluiett; and Mulgrew Miller *Keys to the City* (Landmark).

The Holland Quintet, Foster/Wess, and Horizon Quintet sessions provide a good overview and come with high recommendations.

Smith's capabilities seem firmly planted and we only need wait for more music from this young talent. Here's hoping he gets back to town soon. (A *Profile* of Smith was present in the November 1985 issue of *Downbeat*).

## AND COLEMAN, TOO

Steve Coleman fans who appreciate his work on both his JMT debut and the two Holland Quintet LPs may want to do a little digging for the 1982 IDIBIB release by Doug Hammond entitled *Spaces*. This LP features Coleman with Byard Lancaster, Kirk Lightsey, and Muneen Abdul Fataah. The music features the same style and feel of the Holland releases but is lacking a bit in polish.

## YEAR END

The best of 1985 in no particular order:

1. Willem Breuker *Kollektief* (About Time) Breuker's American debut.
2. Urs Blochlinger Tettet *Neurotica* (Hat Art) More European ensemble work, out/in and with a sense of humor.

3. Misha Mengleberg *Change of Season* (Soul Note) Herbie Nichols' compositions performed by Lacy, Lewis, et al.
4. Bennie Wallace *Twilight Time* (Blue Note) Wallace's Blue Note debut with a relatively wild cast of characters including Stevie Ray Vaughn, Dr. John and Ray Anderson.
5. McCoy Tyner *Just Feelin'* (Palo Alto Jazz) Piano trio work which sparkles from beginning to end. Tyner's best in years.
6. Horizon Quintet *Gumbo* (Amigo) New bop with Smith, Watson, and Miller.
7. Dave Holland Quintet *Seeds of Time* (ECM) The Holland Quintet's second release shows a very strong outing. Possibly record of the year.
8. Frank Foster/Frank Wess *Frankly Speaking* (Concord) A solid straight-ahead offering led by two Basieites.
9. Microscopic Septet *Let's Flip* (Osmosis) A live gig recorded in Rotterdam by the best of the new-wave back door jazz guys. Hot and getting hotter.
10. Kep Hanrahan *Vertical's Currency* (American Clave) More musical integration by Hanrahan (with David Murray and Jack Bruce?). Heading down south the latin way with a danceable beat(s).

# An Interview with O.M.D.

In September, Orchestral Manoeuvres in the Dark played at the Variety Theatre in Lakewood. After opening for the Power Station on their nationwide tour, OMD headlined their own tour in smaller clubs around the country. Their live shows, which received excellent reviews from critics, promoted their sixth and latest album *Crush*. Adrienne and Emily caught up with bassist and lead singer Andrew McCluskey prior to OMD's Cleveland appearance on Wednesday, September 4, 1985, and chatted with this amiable fellow.

Em: This show is your second Cleveland area appearance within a month. Do you feel that this decreased the amount of people in tonight's audience?

Andy: I don't know. I think it's difficult to judge because it's two different audiences. The Power Station audience was a chance for us to play to people who wouldn't normally come to see us. It wasn't that long ago that we played Cleveland so I don't know if maybe it's too soon to be coming back, but I think probably it will be a totally different audience. It will probably be people who have been into OMD for a while, and there's probably not that many of them living around the Cleveland area.

A: Where are you from? Liverpool?

Andy: Near Liverpool, yes.

Em: You don't sound like you're from Liverpool. Did you work on that?

Andy: No, we really don't have Scouse accents. When we go into town, if we're among people we tend to slip into it. Otherwise, we're just sort of English sounding. English people can tell we're from Liverpool.

Em: Did coming from an industrial center such as Liverpool have any effect on your sound, similar to the Manchester sound of Cabaret Voltaire or New Order?

Andy: No, I think that in the very early days our major influence was German music. We got interested in music in the mid-seventies and we didn't like the majority of the music that was around and German music was an alternative to it. Myself and Paul, who started the

band were interested in German music before the punk explosion in England. Surprisingly enough, there were no actual punk bands in Liverpool anyway. All the bands did, quite quickly, develop their own sounds. There've been a lot of bands come out of Liverpool in the last few years but they all sound very different to each other. I don't really think there's one overall Liverpool sound.

A: You're more popular in continental Europe than in England. Why?

Andy: It's fluctuated over the years. Just this year it seems that the record's doing better in Europe than in England. Throughout the European concert, and England included, year-to-year (we've done six albums now over there) different sorts of countries seem to take to the music better or worse. Some songs do better in Germany or England. There's always a market for it in some of the countries and it balances out.

A: Have you done much video?

Andy: Yea, we have. For the whole *Crush* LP we have done an album video which is not so much like ten promo videos linked together. Em: There's promo videos for

the potential singles, but the majority is either us playing or writing or recording. We've had a chance to make videos for songs that wouldn't normally have videos made for them - just album tracks that record companies don't put up video money for unless they're going to be singles. That's given us a chance to do some visual things.

Do you offer input for your videos, or is that mainly the producer?

To an extent - over the years we've gotten more involved but even so, our main forte is still the music. We haven't spent seven years learning to make films; we've been learning to make music. You're always in the hands of the director to a certain extent. You can sit down and talk to them until you're blue in the face about your ideas for this or that but when it comes down to the final filming and editing, you still end up with things you didn't actually want. We've worked quite closely with the directors for the album video and for the single promos. It's quite rewarding. It's nice to work in a different medium.

You had success at a very young age. What was it...21?

Andy: Yes, I think myself and Paul had written four million selling singles before we were 21.

Em: It just seems like the Boris Becker attitude -- you're so young and all this can happen.

Andy: No; I think we took it all with a pinch of salt. We didn't take it very seriously. I suppose we still don't. The band started almost as a hobby. In 1978, the two of us decided we were going to be a band. It was a pretty dumb idea really; just two guys and a tape recorder playing songs that not even our best friends particularly liked. That's one of the reasons we called ourselves Orchestral Manoeuvres in the Dark --because it really didn't matter. We were only going to do one concert. It was like a dare. We dared ourselves to go onstage and play these songs even if nobody was going to like them. Much to our surprise this once concert turned into somebody offering us another concert and then we got a record deal and now, seven years later, we're still sort of stuck with the same dumb name and we've still got that sort of "off-hand" attitude of life. If people like it, that's great; if not, well, that's just tough luck.
